EDAnalyzer

ProtonTruthStudies

```
graph BT; PT[ProtonTruthStudies] --> EA1[EDAnalyzer]; PT --> EA2[EDAnalyzer];
```

The diagram illustrates a data flow from a single source to two separate processing units. At the bottom center is a rectangular box labeled "ProtonTruthStudies". From the top center of this box, a vertical line extends upwards. This line then branches into two horizontal lines, each ending in an upward-pointing arrowhead. These arrows point directly to the bottom center of two rectangular boxes, both labeled "EDAnalyzer", which are positioned side-by-side at the top of the diagram.
